# PROFILE

Al Jazeera turning is an engineering machine shop that was first established in Syria in 1954. Later in the 1987 the company expanded opening another branch in Sharjah, United Arab Emirates. Al Jazeera Turning is always ready to offer its customers the work of long experienced professionals in lathe and turnery work, blacksmithing and engineering dies. The extensive range of tools, machines and skills enables us to deliver the most accurate and quickest components and equipment on the market. Our Mission is to provide our clients with technical and engineering solutions to satisfy their needs in an innovative, cost effective, professional, quality service manner.

Spur Gear

Helical Gear

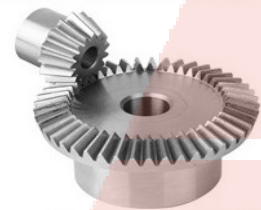

Double Helical Gear  
(Herringbone Gear)

Spiral Bevel Gear

Miter Gear

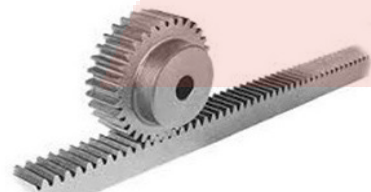

Straight Bevel Gear

Internal Gear

Worm Gear

Rack and Pinion

# OUR FIELDS

## High Precision machining and general machining

- Lathe machining - we provide the most advanced/precise lathe machining on the market in order to fulfill customers needs
- Milling - machining and producing moulding dies
- Gear Manufacturing - manufacturing wide range of gear sizes and types from 10mm to 800mm (Spur, Helical/Double Helical, Spiral/Straight Bevel, worm gears, Etc.)
- CNC Router machining/engraving
- CNC EDM Wire cutting
- CNC Water jet cutting
- Custom Punch and Die sets

In addition to producing custom machinery spare parts, equipment and accessories.

## Fabrication

- Steel Frames and members
- Custom Steel Furniture accessories
- Mass Production of access
- Steel Structures
- Custom Steel Shapes Fabrication
- Cable Tray Fittings And Accessories
- Full Profile Machine Production line
- Oil & Gas Shafts
- Storage Tanks Fabrication
- Conveyor Belt Machines Conveyor Belt Aligning
- Sand Blasting and Powder Coating
- Forging and Stamping
- Custom Building Material Products
- Heavy Duty Door Hinges
- Clamps
- Stands, Racks and Mounts
- Door Sliders
- Industrial Aligned Steel Tables
- Scaffolding

# REPAIR & SERVICING

- Vacuum Pump Repair
- Hydraulic Jacks and Pumps Servicing
- Fire Systems Pumps Repairing
- Water Pumps
- Motor Repair
- Generators Repair
- Diesel Pump Repair
- Production Line Conveyor Belt Aligning
- Machine Design Modification For better efficiency
- Roller Alignment
- Carpentry Blades Machinery Sharpening
- Transfer and Transmission Boxes for Machinery Repairing
